

Data Breaches

What they are & what you can do to prevent them

Lucy Williams
Teaching Demo, October 25, 2021

Undergraduate: Applied Math
Industry: Data Scientist
PhD: the computer science behind DNA sequencing

Learning goals

- * Understand what data breaches are
- * Learn concrete steps you can take to prevent them

What is a data breach?

Exposure of confidential, sensitive,
or protected information to an
unauthorized person

Examples

- * Equifax, Yahoo, Facebook, ...
- * Ashley Madison, Adult FriendFinder
- * VTech

Poor security practice

Sophisticated hack

Missouri
education
website

Equifax
Facebook
Adult
FriendFinder

Ashley
Madison

VTech

SolarWinds

What can you do?

- * Check Have I been pwned?
- * Check Pwned Passwords
- * Understand your threat model

Threat models

- * What systems do I use?
- * (In your career, maybe this will be “what am I building?” instead.)
- * What could go wrong?
- * What should I do about the things that could go wrong?

What can you do?

- * Don't use reused or guessable passwords
- * Use a password manager! LastPass is free
- * Use multi-factor authentication
- * Keep your software up to date
- * Study computer science and computer security

A photograph of a person from behind, wearing a blue hoodie and grey pants, sitting on a large, light-colored rock. They are looking out over a vast, mountainous landscape under a sky filled with scattered clouds.

Thank you!
